

All technical data presented represent typical results, unless stated otherwise as min/max values. No guarantee is made that material will meet exactly the values shown.

Wire Bar & Adjustable Applicators

(Top) Wire Bar Coater : Stainless wire is wound onto 1/4 inch diameter stainless bar. Difference of wire diameter will produce different thickness of film.

(Bottom) Micrometer Adjustable Film Applicator : This is a kind of doctor blade but it can change coating thickness. (0 - 10mm)

Application: Advanced energy

Product type: Hand tools

Production scale: Lab
